Computer Operation, Level-3 Formative Assessment (Excel)

1

Job 02:	**Prepare a Salary sheet as per specification using spreadsheet analysis software**
Time:	**1 Hour**
Unit Covered:	**OU-ICT-CO-03-L3-V1: Prepare a Spreadsheet**

Instructions:

Read and understand the directions carefully:

- This practical demonstration is based on the performance criteria from all or some of the units of competency Computer Operation, Level - 3
- This assessment activity will be used to measure your underpinning skills.
- you will have fifteen (15) minutes to familiarize yourself with the resources to be used.

Working Procedure/ Steps:

1. Observe and wear personal protective equipment (PPE) as required for the Job.
2. Observe and follow Occupational Health and Safety (OHS) demonstration processes.
3. Read the provided Job and Specification sheet.
4. Save the file with your "Registration No_SalarySheet" into folder created by you.
5. Perform the Job within the given time as per Sample and specification sheet.
6. Check and review after completion of the job.
7. Protect your worksheet with (Password: 123456).
8. Save the document with both .xlsx and .csv extension.
9. Show data using "VLOOKUP" as per sample-2 based on Emp_ID.
10. Print the document using PDF printer or document writer in PDF.
11. Submit finished output to the Competency Assessor.
12. Shutdown computer and clean your workplace.
13. Clean tools, equipment, materials, and work area.

Job 2:	Specification Sheet 2: Prepare a salary sheet as per specification

Condition for the job:

- ✓ **Title font**: Times New Roman
- ✓ **Other text font** - Arial
- ✓ **Title font size:** 18 (VR Graphics)
- ✓ **Subtitle font size**: 14 (Salary Sheet)
- ✓ **Cell formatting**: as per sample
- ✓ **Logo/Image**: use any image size - 0.72inch × 0.51inch
- ✓ **EMP ID**: Apply validation - unique value for each employee type numeric digit: 6
- ✓ **Designation**: Apply dropdown list to choose designation (as per sample)
- ✓ **Basic Salary:** Based on Designation values are auto fill following below condition

  Principal – 16000
  JPO – 9000 Trainer - 8500
  Lead Trainer - 9500
  IT Officer - 10000

House Rent : (HR)

- ✓ 60% of basic for designation Principal and IT Officer.
- ✓ 50% of basic for designation JPO and Lead Trainer.
- ✓ 40% of basic for designation others.

Medical Allowances (MA): Fixed Tk 1500

- ✓ **Provident fund** (PF): 20% basic
- ✓ **Income Tax** (IT): 15% basic
- ✓ **Gross Salary**: Basic + House Rent + MA
- ✓ **Net Salary:** Gross Salary - PF and IT
- ✓ **Maximum and minimum salary**: Calculate against Total earning (Insert column as per required)

Tools, Equipment and furniture:	1. Personal Computer - 1 set 2. Ergonomic Chair – 1Pc
Software:	3. Operating Software- Windows 4. Application Software- Spreadsheet Analysis Program
PPE:	5. Rubber shoes/Sandal- Pair

Job 02:	**Prepare a Salary sheet as per specification using spreadsheet analysis software**
	1 Hour
Unit Covered:	**OU-ICT-CO-03-L3-V1: Prepare a Spreadsheet**

Instructions:

Read and understand the directions carefully:

- This practical demonstration is based on the performance criteria from all or some of the units of competency Computer Operation, Level - 3
- This assessment activity will be used to measure your underpinning skills.
- you will have fifteen (15) minutes to familiarize yourself with the resources to be used.

Working Procedure/ Steps:

01. Observe and wear personal protective equipment (PPE) as required for the Job.
02. Observe and follow Occupational Health and Safety (OHS) demonstration processes.
03. Read the provided Job and Specification sheet.
04. Save the file with your "Electricity Bill" into folder created by you.
05. Perform the Job within the given time as per Sample and specification sheet.
06. Check and review after completion of the job.
07. Protect your worksheet with (Password: NSDA).
08. Save the document with both .xlsx and .csv extension.
09. Show data using "VLOOKUP" as per sample-2 based on Cust ID.
10. Print the document using PDF printer or document writer in PDF.
11. Submit finished output to the Competency Assessor.
12. Shutdown computer and clean your workplace.
13. Clean tools, equipment, materials, and work area.

Job 2:	Specification Sheet 2: Prepare a salary sheet as per specification

Condition for the job:

Work must be carried out in a safe manner and according to Computer operation (Level-3) standards.

- ✓ **Title font**: Arial Other text font: Tahoma
- ✓ **Title font Size**: 15 (Electricity Bill)
- ✓ **Cell Formatting**: As per sample
- ✓ **Logo/Image**: Use any image: Size - 0.88″×0.84″
- ✓ **Cust ID**: Apply Validation for Unique ID for each Cust ID Should be 6-digit numeric value.
- ✓ **Cust_Name**: Name should be filled automatically according to Cust_ID
- ✓ **Meter Reading Date**: Apply cell format for showing the date as per sample and must be valid for within the date of July 1, 2023 to June 30, 2024.

Calculation:

1. **Consumed Unit**: Use Appropriate formula
2. **Electricity Charge:**
   Use appropriate formula for calculating Electricity Charge.

Range of Consumption	Rate Per Unit
0-75 Unit	TK 4.19
76-200 Unit	TK 5.72
201-400 Unit	TK 6.34
401-500 Unit	TK 9.94
Above 500 Unit	TK 11.46

3. **Service Charge**: Use the formula to place TK 500 automatically for the customer who minimum use 1 unit of Electricity.
4. **Bill Amount:** Bill amount must be calculated by the Summation of **Electricity charge and Service Charge.**
5. **Rank:** Use formula to ranking value based on **"Bill Amount"**

Tools, Equipment and furniture:	6. Personal Computer - 1 set 7. Ergonomic Chair – 1Pc
Software:	8. Operating Software- Windows 9. Application Software- Spreadsheet Analysis Program

Job 2:	Specification Sheet 2: Prepare a salary sheet as per specification

Condition for the job:

Work must be carried out in a safe manner and according to Computer operation (Level-3) standards.

1. Select paper Size: A4
2. Set Margins Top-1", Bottom-0.7", Left 1.5", Right-0.5"
3. Create and Save spreadsheet as per sample to your created folder as named "XL_Your Name"

   Condition for calculating the "Total" marks:

   1. Calculate the total marks if obtained marks of all subjects are passed otherwise print "F" and passed marks is 40
4. **Conditions for calculating the "Letter Grade" according to Total marks:**
   - Total mark greater than or equal 80% then "A"
   - Total mark is between 60% and 79% then "B"
   - Total mark is between 40% and 59% then "C"
   - Otherwise "F"
5. Sorting the Result Sheet by "Total" using descending order. Set the rank position using RANK function
6. Calculate the "Max. Mark" from all passed students.
7. Calculate the "Average" for all students.
8. Filter all A grade students
9. Set Page number at footer of the worksheet
10. Save and Submit the Spreadsheet to Assessor as per Assessor.

SL No	Name	ST ID	Bangla (100)	English (100)	Math (100)	Total	Letter Grade	Rank	No. Of Pass	Max Mark	Average
1	Mamun	101	56	55	78						
2	Babul	102	41	A	45						
3	Manik	103	54	55	80						
4	Munna	104	77	67	64						
5	Mannan	105	58	47	22

Con for the job:

work must be carried out in a safe manner and according to Computer operation (Level - 3) standards.

Sample-1:

- **Title font**: Times New Roman
- **Other text fon**t: Arial
- **Title font Size**: 14 (Weekly Wages sheet for Worker)
- **Cell Formatting**: As per sample
- **EMP_ID**: Apply Validation, Unique value for each, Employee consider 7 digit Emp-ID where Leftmost digit is character "E" and rest of 6 digit are Number type.
- **Designation**: Apply dropdown List to choose designation (Grade-1, Grade-2, Grade-3)
- **Basic Wages**: Up to 40 hours wages is basic wages. Values are auto fill following below condition:
  Grade-1: 150 Taka/ Hour
  Grade-2: 125 Taka/Hour
  Grade-3: 100 Taka/Hour
- **Overtime Wages**: Hours above 40 are count as overtime hours. Calculate Overtime Wages as 200 Taka/Hour using auto fill formula.
- **Medical Allowance**: Fixed Tk. 500/week for all allowance
- **Gross Wages**: Base Wages + Overtime Wages
- **Income Tax (IT)**: 10% of Gross Wages
- **Net Amount**: (Gross Wages + Medical Allowance) – IT
- **VLOOKUP:** Use the appropriate formula for looking up Emp_ID. Make a dropdown list on the Emp_ID (As per Sample). Name, Designation, Hours/Week, Basic Wages etc column should show the Net salary.

Sample-2:

Chart Title: Font - Calibri (Body), 14 size, Bold
Legend Entry: Font - Calibri (Body), 11 size
Horizontal Axis: Font - Calibri (Body), 12 size, Bold
Add Axis Titles: "Months" as Horizontal Axis and "Taka" as Vertical Axis.

02:	**Prepare a Salary sheet as per specification using spreadsheet analysis software**
Time:	**1 Hour**
Unit Covered:	**OU-ICT-CO-03-L3-V1: Prepare a Spreadsheet**

Instructions:

Read and understand the directions carefully:

- This practical demonstration is based on the performance criteria from all or some of the units of competency Computer Operation, Level - 3
- This assessment activity will be used to measure your underpinning skills.
- you will have fifteen (15) minutes to familiarize yourself with the resources to be used.

Working Procedure/ Steps:

01. Observe and wear personal protective equipment (PPE) as required for the Job.
02. Observe and follow Occupational Health and Safety (OHS) requirements during the demonstration processes.
03. Read the provided Job and Specification sheet
04. Collect required tools, materials, and equipment for the job.
05. Prepare PC to perform job smoothly.
06. Create a folder in "D Drive" namely "Reg no Your Name".
07. Create and Save the file with named "Job-02" to the newly created folder.
08. Perform the job within the given time as per sample and specification sheet.
09. Check and review after completion of the job.
10. Protect your worksheet with password (Password: 4321)
11. Save the document with both xlsx and .csv extension
12. Show data using "VLOOKUP" as per sample-B based on "Category"
13. Complete all calculation as per requirement given in the Specification Sheet.
14. Make a copy of the worksheet within the same workbook and name it "Filter"
15. Set the filter option using header row
16. Print the document using PDF printer or document writer in PDF.
17. Submit final output to the Competency Assessor
18. Shutdown computer and clean your workplace 19. Clean tools, equipment, materials, and work area.

Job 2:	Specification Sheet 2: Prepare a salary sheet as per specification

Condition for the job:

Work must be carried out in a safe manner and according to Computer operation (Level-3) standards.

- **Title font**: Arial
- **Other text font**: Tahoma
- **Title font Size**: 15 (Monthly Budget Tracker)
- **Cell Formatting**: As per sample
- **Date Format**: Use date format as DD-MMM-YYYY in 'Date' Column.
- **Data validation**: Apply data validation for Category names. Category names other than "Income, Housing, Utilities, Food, Transport, Entertainment" will not be allowed. (Use Custom Rule, don't use List Rule)
- **Apply Conditional Formatting** on Type column to highlight "Income" with Green color and "Expense" with Rad color. (As per sample)
- **Type**: Type will come automatically from Category. Only "Income" Category will be defined as "Income", all others will be "Expense"

Calculation:

01. **Total**: Use appropriate formula to calculate the total Income and Expenses and show it in a separate table (Calculate on the basis of Type).
02. **Budget Range**: Use appropriate formula to indicate "Income" or "In Range" or "Over Budget" as per below conditions on Type and Amount:

Type	Amount	Range
Income		Income
Expense	>20% of Income	Over Budget
Expense	<20% of Income	In Range

03. **Rank**: Use appropriate formula to show Ranking of expenses (Only which types are "Expense") in this column.
04. **Lookup**: Use appropriate formula for looking up total expenses by the category. Make a dropdown list on the category to show total expenses (As per Sample). The Total Amount column should show total of the same category. (Use Helper Table as necessary)
05. **Insert a Column** Chart for Total Monthly Income vs. Total Monthly Expenses (Refer to Sample)

Tools, Equipment and furniture:	10. Personal Computer - 1 set 11. Ergonomic Chair – 1Pc
Software:	12. Operating Software- Windows 13. Application Software- Spreadsheet Analysis Program

06-Jun-2024	Transport	Office Transport	700			Expense
07			400			Expense
08			800			Expense

Total Monthly Income	
Total Monthly Expenses	
Net Balance	

VLOOKUP (With Helper Table)	
Category	Total Amount
Entertainment	400

Electricity Bill

Month - June								Issued on 2025	
Sl No.	Name	Area	Previous Unit	Current Unit	Consumed Unit	Electricity Charge	Service Charge	Bill Amount	Average (Area-2)
1	Almas	Area-1	50012	50150					
2	Karim	Area-2	00079	00346					
3	Marium	Area-3	61400	61488					
4	Anil	Area-2	21105	21509					
5	Jalal	Area-3	03511	03516					
6	Kabir	Area-2	40005	40378					
7	Monir	Area-1	30052	30144					

Conditions for the job:

✓ For calculating the Unit Consumed:

✓ Consumed Unit = Current Unit - Previous Unit.

✓ For calculating the "Electricity Charge":

❖ Electricity Charge is 10/- per unit for less than 100 Consumed Unit.

❖ Electricity Charge is 12/- per unit for between 100 and 200 Consumed Unit.

❖ Electricity Charge is 13/- per unit for more than 200 Consumed Unit.

❖ Minimum Electricity charge is 200/-.

✓ For calculating the "Service Charge":

❖ BDT 300 for "Area-1"

❖ BDT 500 for "Area-2"

❖ BDT 600 for "Area-3"

✓ For calculating the "Bill Amount": Electricity charge + Area Charge.

✓ For calculating Average: Use only the values of "Area-2".

Additional Instructions

➤ Make a copy of the worksheet within the same workbook and named it "Filter".

➤ Set the filter option using header row

➤ Sorting the spreadsheet by "Bill Amount" using descending order

➤ Use the same fill and font color of the cell contain duplicate value.

➤ Set page number at footer of the worksheet.

Job 2:	Specification Sheet 2: Age sheet as per specification

Condition for the job:

Work must be carried out in a safe manner and according to Computer operation (Level-3) standards.

- Instructions:
- Open a new Excel worksheet. Enter the following data into your work book

1. Perform the following validation and formatting:

A. **Validate the "Age" field** to allow input values only between 1 and 44 (inclusive range). No other values will be accepted.

B. The "Age Category" field will be highlighted with color as below:

1. **Children**-Green Fill with Dark Green Text.
2. **Youth**-Yellow Fill with Dark Yellow Text.
3. **Adult**-Light Red Fill with Dark Red Text.

1. Follow the steps below to perform different functions:

- **Function 1: SUM**
  - ✓ Use the SUM function to calculate SUM.
  - ✓ This will calculate the sum of the ages from column C.
- **Function 2: AVERAGE**
  - ✓ Use the AVERAGE function to calculate the AVERAGE rounded to two decimal places.
  - ✓ This will calculate the average of the ages from column
- **Function 3: COUNT**
  - ✓ Use the COUNT function to calculate COUNT.
  - ✓ This will count the number of column C cells containing numeric values.
- **Function 4: MAX**
  - ✓ Use the MAX function to calculate the Maximum Value.
  - ✓ This will find the maximum value from column C.
- **Function 5: MIN**
  - ✓ Use the MIN function to calculate the Minimum Value.
  - ✓ This will find the minimum value from column C.
- **Function 6: IF**
  - ✓ Use a formula to calculate the condition part on the table:
  - ✓ This will categories the age based on a condition:
    - Age between (1-12) is categorized as Children.
    - Age between (18-23) is categorized as Youth.
    - Age between (26-44) is categorized as Adult.

3. **Create a VLOOKUP title in columns and 1, as shown in the figure before Category** corresponding to e "Name" in your data table
4. **Create a 2-D Bar Column Chart to display the "Age" field against the 'Name' field.**

Tools, Equipment and furniture:	15. Personal Computer - 1 set 16. Ergonomic Chair – 1Pc
Software:	17. Operating Software- Windows 18. Application Software- Spreadsheet Analysis Program
PPE:	19. Rubber shoes/Sandal- Pair

Specification Sheet 2: Prepare a "Score Sheet" as per specification

Condition for the job:

Work must be carried out in a safe manner and according to Computer operation (Level - 3) standards.

Font: Calibri, **Title Font Size**: 20 (ODI Series) and Bold

Sub Title size: 14 and Bold

Other text font size: 12

Cell Formatting: As per sample

Logo/Image: Use any image; Size - 0.32"X0.32"

Jersey-No: Apply Validation for Unique Jersey No for each Player, Jersey No Should be 4-digits Text and numeric value.

Total Runs: Based on each match Values are autofill following below condition.

- ✓ Calculate total runs by using formula.
- ✓ Consider 20 runs for each wicket.
- ✓ Calculate total runs considering the summation of all matches runs and summation of equivalents runs for each wicket.

Players of the Series: Based on Total Runs. Values are autofill following below condition:

- ❖ Highest runs owners will be the player of the series.
- ❖ Show name of the "Player of the Series" using formula.
- ❖ Orientation: Angle Counterclockwise and player's name should be bold

Average Runs:

- ✓ Calculate average runs based on total runs and total matches played by using formula.

Rating: Based on Total Runs.

- Calculate rating by using formula.
- Player will get 1(one) rating if total runs 100 runs.
- Player will get 0(Zero) rating if total runs less than 100.

Bangladesh vs South Africa 3-Match ODI Series, 2023

Task 2:	Prepare a result sheet as per specification using spreadsheet analysis software

Conditions for the job:

~~Condition For the Job: Work must be carried out in a safe manner and according to Computer~~ operation (Level - 3) standards.

Title font: Arial
Other text font: Times New Roman
Title Font Size: 17
Cell Formatting: As per sample
Calculation:

1. **Student ID**: Apply validation. Unique value for each Student; consider 6-digit Student_ID where 1st leftmost digit is character 'S' and rest of 5 digit are Numeric type.
2. **Grade Point**: Use appropriate formula to find out Grade Point for each subjects as per below conditions for Marks and Grade Point.

Marks Range	Grade Point
80-100	5.00
70-79	4.00
60-69	3.00
50-59	2.00
00-49	0.00
Abs	Absent

3. **Total:** Use appropriate formula to calculate the calculations (Calculate on the basis of Type).
4. **Grade Point Average (GPA)**: Calculate with appropriate formula from all subject's Grade Point.
5. **Letter Grade**: Use appropriate formula to find out Letter Grade from GPA column as per below conditions:

Grade Point Average	Letter Grade
5.00	A+
4.00-4.99	A
3.00-3.99	B
2.00-2.99	C
0.00-1.99	F
Absent	Absent

6. **Position (Rank)**: Use appropriate formula to find rank from **GPA column**.
7. **Conditional Formatting**: Apply Conditional Formatting on "**Comments**" column to highlight with **Green Color** when "**Pass**", and with **Yellow Color** when "**Fail**" and with **Red Color** when "**Absent**".
8. **VLOOKUP**: Use the appropriate formula for looking up student names. Make a dropdown list on the student names (As per Sample). The GPA column should show the GPA.
9. **Chart**: Insert a Column chart for Student Name vs Total Marks (Refer to Sample).

Tools, Equipment and furniture:	20. Personal Computer - 1 set 21. Ergonomic Chair – 1Pc
Software:	22. Operating Software- Windows 23. Application Software- Spreadsheet Analysis Program
PPE:	24. Rubber shoes/Sandal- Pair

Student Result Sheet												
		Mathematics		ICT		Bangla		Total Marks	Grade Point Average	Latter Grade	Position (Rank)	Comment (Pass/ Fail/

Job 2:	Specification Sheet – 2 for Computer Operation, Level – 3 Job 02: Prepare a monthly salary sheet as per specification using spreadsheet analysis software

Condition for the job:

Title font: Arial

Other text font: Times New Roman

Title font Size: 15

Cell Formatting: As per sample

Calculation:

1. **Total**: Use appropriate formula to calculate the calculations (Calculate on the basis of Type).
2. **Tax Amount**: Calculate with appropriate formula from Basic Salary and Tax Rate.
3. **Total Deduction**: Tax Amount + Loan Deduction.
4. **Gross Salary**: Basic Salary + Allowances.
5. **Net Salary**: Gross Salary - Total Deduction.
6. **Budget Range**: Use appropriate formula to indicate "In Range Deduct" or "Over Deduct" as per below conditions on Type and Amount:

Type	Amount	Range
Tax Rate	> 10% of Basic Salary	Over Deduct
Tax Rate	<= 10% of Basic Salary	In Range Deduct

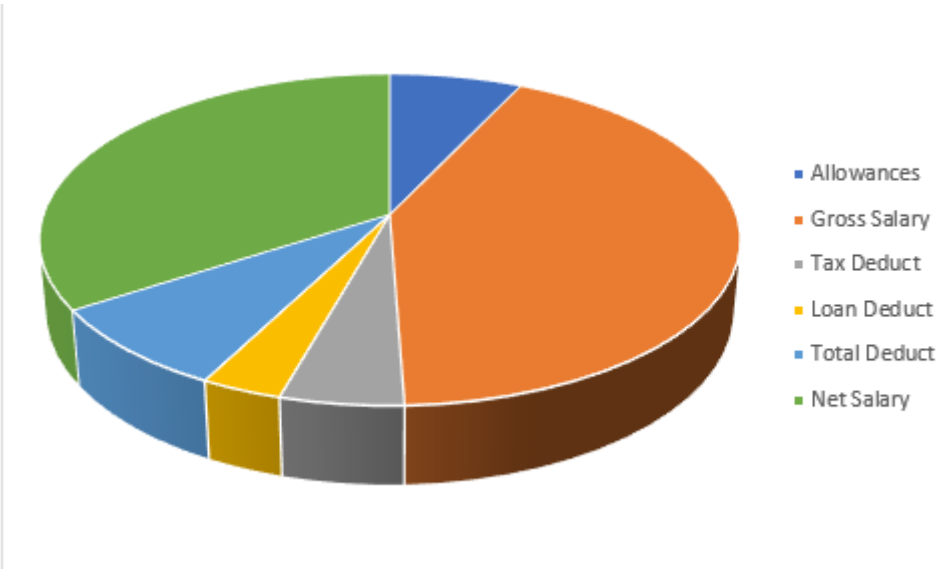
7. **Conditional Formatting**: Apply Conditional Formatting on "Budget Range" column to highlight with Green colour when Budget Range is "In Range Deduct" and with Red color when Tax Budget Range is "Over Deduct".
8. **Category Names:** Apply data validation for Category Names. Category names other than "Basic Salary, Allowance, Gross Salary, Tax Deduct, Loan Deduct, Total Deduct and Net Salary" will not be allowed (Use Custom Rule, don't use List Rule).
9. **Types:** Types column will fill-up automatically from Category. The "Basic Salary, Allowances, Gross Salary and Net Salary" Category will be defined as "Income", all others will be "Expense".
10. **VLOOKUP:** Use the appropriate formula for looking up category names. Make a dropdown list on the category names (As per Sample). The Total Amount column should show sum of the same category. (Use Helper Table as necessary).
11. **Chart:** Insert pie chart (As per Sample).

Tools, Equipment and furniture:	**1.** Personal Computer - 1 set **2.** Ergonomic Chair – 1Pc
Software:	**3.** Operating Software- Windows **4.** Application Software- Spreadsheet Analysis Program
PPE:	**5.** Rubber shoes/Sandal- Pair

Monthly Salary Sheet									
Month: October 2024									
Employee ID	Basic Salary	Allowances	Tex Rate (%)	Tex Amount	Loan Deduction	Total Deduction	Gross Salary	Net Salary	Budget Range
E001	6000	1000	10		400				
E002	5000	1200	15		500				
E003	4000	1500	20		500				
E004	3000	1000	10		500				
E005	8000	500	15		500				

Category	Amount	Type
Basic Salary	26000	Income
Allowances	5200	Income
Gross Salary	31200	Income
Tax Deduct	3650	Expense
Loan Deduct	2400	Expense
Total Deduct	6050	Expense
Net Salary	25150	Income

Vlookup	
Category	Total Amount
Net Salary	25150



12	Prepare a monthly "Worker Payment Report" as per specification using spreadsheet analysis software

Condition for the job:

1. Page size – A4; Orientation – Portrait; Margin – Top – 1 in, Bottom – 0.75 in, Left – 1 in, Right – 1 in
2. **Title font**: Arial
   Other text font: Tahoma, Title font Size 16 (Monthly Worker Payment Report)
   Cell Formatting: As per Sample
3. **Emp_ID:** Apply validation. Unique value for each Emp; consider 5 digit Emp_ID where 1st leftmost digit is character 'W' and rest of 4 digit are Numeric type.
4. **Designation**: Create a drop-down list to select from:
   - Grade-A
   - Grade-B
   - Grade-C

   Use the Formula for calculating the bellows:
5. **Basic Wages**: Up to 8 hours wages is basic wages. Values are auto fill following below conditions
   - ✓ Grade-A: 140 Taka/Hour
   - ✓ Grade-B: 120 Taka/Hour
   - ✓ Grade-C: 90 Taka/Hour
6. **Overtime Wages**: Hours above 8 are count as overtime hours. Calculate overtime wages as 250 Taka/hour using auto fill formula.
7. **Transport Allowance**: Fixed 120 Taka per employee
8. **Gross Salary**: Basic Wages + Overtime Wages + Transport Allowance
9. **Tax Deduction** (Income Tax): 7% of Gross Salary
10. **Net Salary**: Gross Salary – Tax Deduction
11. **VLOOKUP**: Use the appropriate formula for looking up Emp_ID. Make a dropdown list on the Emp_ID (As per Sample). The Net salary column should show the Net salary.
