Computer Operation Level-3(19/07/2025)

1. Which of the following is NOT a type of non-verbal communication?

A. Facial expressions B. Gestures **C. One to one communication** D. Written Test

2. What is the purpose of the File Explorer (Windows) or Finder (macOS)?

A. To browse the internet B. To send emails

C. To manage and organize files and folders D. To play music

3. How do you select multiple icons on the desktop in Windows?

A. Click each one individually **B. Hold the Ctrl key and click each icon**

C. Press F1 D. Hold the Alt key and click each icon

4. Create a numbered list or Bullet List Keyboard Command:

A. Ctrl + Shift + L B. Ctrl + Shift + B C. Ctrl + Alt + I D. Ctrl + Alt + B

5. What is the first software that loads when a computer is powered on?

A. Operating System **B. BIOS/UEFI** C. Application Software D. Firmware

6. Which keyboard shortcut is typically used to switch between Bangla and English typing modes in Windows?

A. Ctrl + B **B. Ctrl + Alt + Space** C. Shift + F12 D. Ctrl + Shift + B

7. Which of the following settings is found under the 'Page Layout' (or 'Layout') tab in MS Word?

A. Numbering **B. Line Number** C. Line Spacing D. Multilevel list

8. Which feature in MS Word is commonly used when preparing a multi-page report with headings and subheadings?

A. Sub Nite/Footnote B. Page Break

C. Table of Contents and Styles D. Headings

9. When preparing a research paper or academic report, what features are most important?

A. Animation and Transition **B. Footnotes, Citations, and Bibliography**

C. Symbols and Equations D. Page Color and Border

10.Which feature in MS Word allows you to divide a document into sections with different layouts (e.g., portrait and landscape)?

A. Page Break **B. Section Break** C. Line Spacing D. Page Setup

11.You want to check if a cell is empty. Which function should you use?

A. =ISNUMBER() B. =ISERROR()

C. =ISEMPTY() **D. =ISBLANK()**

Mostakim 01955159433

Computer Operation Level-3(19/07/2025)

12.What is the result of =ROUND(12.789, 2)?

A. 12.7 **B. 12.79** C. 12.78 D. 12.8

13.What does the formula =IF(B2>=100, "Pass", "Fail") do?

A. Compares B2 to 100 and displays "Pass" if less

B. B2<=100 then Return "Pass" or "Fail"

C. Returns "Pass" if B2 is greater than 100, otherwise "Fail"

D. Returns "Fail" if B2 is greater than 100, otherwise "Pass"

14.You want to prevent users from entering a number greater than 10 in a cell. What feature would you use?

A. Conditional Formatting B. Protect Sheet **C. Data Validation** D. Cell Styles

15. You need to apply different headers and footers for different chapters in your document. What would you use?

A. Page Break B. Table of Contents **C. Section Break** D. Header & Footer

16.You want the first row (headers) to repeat at the top of each printed page. Which setting would you use?

A. Select the row and change Page Setting B. Use the repeat headers and footers

C. use Rows to repeat at top D. Insert a new row on each page

17.Which is relation Operator in the Excel?

A. & **B. < >** C. * D. +

18. Which view in PowerPoint displays the slide thumbnails on the left and the current slide on the right, along with speaker notes below the slide window?

A. Slide Sorter View **B. Normal View** C. Reading View D. Printing View

19. Which of the following file types is most likely to be blocked by email servers due to security risks?

A. .html B. .zip **C. .exe** D. .pdf

20. What is the primary purpose of a device driver?

A. To protect the computer from viruses

B. To increase the system's internet speed

C. To allow hardware to communicate with the operating system

D. To clean up unused files

Mostakim 01955159433

Computer Operation Level-3(19/07/2025)

Write short answer of the following questions:

21.Write down 5 most uses social media platform?

- **Facebook, Instagram, TikTok, WhatsApp, X (formerly Twitter)**

22.What is the difference between a Page Break and a Section Break?

- Breaks are used to control the layout of your document by dividing it into sections, pages, or columns.
- Section Break divides the document into sections, allowing different formatting (e.g., headers, footers, margins) for each section.

23. what is line spacing and where can you change it?

- Line spacing is the space between lines of text. You can change it from the **"Paragraph"** section under the **"Home"** or **"Layout"** tab in MS Word.

24. Write down 3 online form names

- Google Forms, Microsoft Forms, JotForm

25. What does work the Slide Pane in the PowerPoint

- The **Slide Pane** shows a list of all your slides (thumbnails) on the left, helping you navigate and organize slides.

26. What means of Software, Hardware & Farmwear

- **Software:** Programs (e.g., Windows, MS Word).
- **Hardware:** Physical components (e.g., CPU, keyboard).
- **Firmware:** Low-level software embedded in hardware (e.g., BIOS).

27. Write down 4 relation Operator in the Excel

- = (Equal to)
- > (Greater than)
- < (Less than)
- < > (Not equal to)

28. What is the device driver?

- A **device driver** is software that allows the operating system to communicate with hardware devices.

29. What is the correct syntax of the VLOOKUP function?

=VLOOKUP(lookup_value, table_array, col_index_num, [range_lookup])

30. What is the final step in the Mail Merge process?

Answer: The final step in Mail Merge is to Finish & Merge by printing or sending the merged documents.

Mostakim 01955159433

Computer Operation Level-3(12/07/2025)

Whole Bangladesh

1. Which of the following is the first element in the communication process?
   A. Message B. Receiver C. Feedback **D. Sender**
2. What is the first step in identifying a client's requirements?
   A. Offering solutions immediately **B. Listening actively to the client**
   C. Telling the client what they need D. Discussing with the problem.
3. How can you quickly return to the desktop in Windows?
   A. Press Alt + F4 **B. Press Windows key + D**
   C. Press Ctrl + Shift + Esc D. Press Tab
4. What does dragging a window to the edge of the screen in Windows do?
   A. Closes the window B. Changes the background
   C. Maximizes or snaps the window to half the screen D. Opens the Start menu
5. Which one is the Ergonomic requirements?
   A. Apron B. Air Plug **C. Footrest** D. Sunglass
6. You open your word processing software to begin a report, but the formatting toolbar is missing. What should you do first?
   A. Restart the computer
   B. Editing the file menu.
   C. View menu to restore the toolbar
   D. Uninstall and reinstall the software immediately
7. Which is not word processing software?
   A. Windows Doc B. LibreOffice Writer
   C. WPS Office Free Writer D. Google Doc
8. Which tools use from references tab for format word documents?
   A. Page layout **B. Bibliography** C. Header & Footer D. Labels
9. Keyboard Command of "Strikethrough"
   A. Ctrl+S **B. Ctrl+D** C. Ctrl+Alt+D D. Alt+D
10. You are entering dates in a spreadsheet, but they are displaying as random numbers (e.g., 44927). What is the most likely issue?
   A. The cell is formatted as text **B. The cell is formatted as general or number**
   C. The cell is formatted as long date D. Your keyboard is malfunctioning
11. You are entering phone numbers in a column, and Excel keeps converting them to scientific notation. What's the correct solution?
   A. Format the cell as Number **B. Format the cell as Text**
   C. Format the cell as Fraction D. Format the cell as Scientific
12. You copy a cell with a formula (=A1+B1) and want to paste only the calculated result into another cell. Which Paste Special option should you use?
   A. Paste All B. Paste Formula **C. Paste Values** D. Paste Link
13. Which is data manipulation tools?
   A. Data Validation **B. Consolidate** C. Function D. RANG
14. Which operator is used to combine (concatenate) text from two cells?
   A. + **B. &** C. / D. *
15. What is the difference between Animation and Transition in PowerPoint?
   A. Animation is used for slide background only, Transition is for text
   B. Animation affects objects on a slide, Transition affects the entire slide change
   C. Transition is faster than animation
   D. There is no difference

Mostakim 01955159433

16. Where do you find the Slide Master feature in PowerPoint?

A. Insert tab **B. View tab** C. Home tab D. Review tab

17. What is the default name for the topmost layout in Slide Master view?

A. Title Slide B. Main Slide **C. Parent Master** D. Office Theme

18. Keyboard Command for Microsoft PowerPoint "Start slideshow from current slide"

A. F5 **B. Shift+F5** C. Alt+F5 D. Ctrl+Alt+F5

19. Which is search engine below?

A. MSN B. Yahoo C. Opera D. Duronto

20. What type of question allows users to select more than one option in Google Forms?

A. Short answer B. Multiple choice **C. Checkbox** D. Dropdown

Short Anser

21. What is BIOS and how do you access it?

Answer: BIOS (Basic Input/Output System) is firmware.

22. What is Mail Merge in MS Word?

Answer: Mail Merge is a feature that allows you to create personalized documents (like letters, emails, or labels) for multiple recipients using a single template and a data source.

23. What are breaks & Section Break in MS Word?

Answer: Breaks are used to control the layout of your document by dividing it into sections, pages, or columns. Section Break divides the document into sections, allowing different formatting (e.g., headers, footers, margins) for each section.

24. What are the four main areas in a PivotTable field list?

Answer: Rows, Columns, Values, and Filters.

25. What printing options are available in PowerPoint?

Answer: You can print Full Page Slides, Handouts, Notes Pages, or Outline View.

26. What is Data Validation in MS Excel?

Answer: Data Validation is a feature that controls what type of data can be entered into a cell.

27. What is the function of the "CC" & "BCC" field?

Answer: "CC" stands for Carbon Copy and is used to send a copy of the email to additional recipients. "BCC" stands for Blind Carbon Copy. It hides the email addresses of recipients from each other.

28. Write down 5 Virtual Platform name?

Answer: Zoom, Bip, Meet, WhatsApps, WeChat.

29. Write down 4 Cloud Storage name?

Answer: Dropbox, MEGA, OneDrive, Google drive.

30. Write down at least 3 printing Error?

Answer: Print spooling, Paper jam, Poor print quality, Printer status Offline.

Computer Operation Level-3(05/07/2025)

1. **A combination of which shortcut keys use to split a table?**
   a) Ctrl+shift+enter b) Ctrl+enter c) Shift+enter d) ctrl+alt+S
2. **Press ____ to open the help window in the MS Word document.**
   a) F1 b) F2 c) F9 d) F11
3. **What is gutter margin?**
   a) Margin that is added to the left margin when printing
   b) Margin that is added to the right margin when printing
   c) Margin that is added to the binding side of the page when printing
   d) Margin that is added to the outside of the page when printing
4. **Which bar shows the current position as far as the text goes?**
   a) Title bar b) Menu bar c) Scroll bar **d) Status bar**
5. **AutoCorrect was originally designed to replace _____ words as you type.**
   a) Short, repetitive b) Grammatically incorrect
   c) Misspelled d) None of the above
6. **Which of the following is not section break Option?**
   a) Next Page **b) Previous Page** c) Odd Page d) Even Page
7. **You can set Page Border in Excel from**
   a) From Border tab in Format Cells dialog box
   b) From Border tool in Formatting toolbar
   c) From Line Style tool in Drawing toolbar
   d) You cannot set page border in Excel
8. **When all the numbers between 0 and 100 in a range should be displayed in Red color, apply**
   a) Use =if function to format the required red
   b) Apply Conditional Formatting command on Format menu
   c) Select the cells with numbers between 0 and 100, then click Text Color tool and choose red.
   d) All of above
9. **Which command will you choose to convert a column of data into row?**
   a) Cut and Paste
   b) Paste Special > Transpose
   c) Both of above
   d) None of above
10. **Which of the following series type is not valid for fill series dialog box?**
    a) Linear b) Growth c) Autofill **d) Time**
11. **Getting data from a cell located in a different sheet is called_____**
    a) Referencing b) Accessing c) Updating d) Functioning
12. **Which of the following is not a valid data type in excel?**
    a) Number **b) Character** c) Label d) Date/Time
13. **Concatenation of text can be done using**
    a) Apostrophe (') b) Exclamation (!) c) Hash (#) **d) Ampersand (&)**
14. **Which of the following section does not exist in a slide layout?**
    a) Titles b) Lists c) Charts **d) Animations**
15. **Which of the following pane is NOT available in Task Pane?**
    a) Slide Design

b) Master Slide
c) Slide Layout
d) Slide Transition

16. **Which of the following features should you use when typing in the notes text box?**
    a) Slide show b) Insert c) Slide master **d) Zoom**
17. **What is the full form of the internet?**
    a) International Network
    b) Internal Network
    c) Interconnected Network
    d) International Network
18. **The Email Filed accepts one email address at a maximum of _____ characters.**
    a) 254 b) 256 c) 268 d) 155
19. **Which of the following components in an email address separates the username from the email provider's domain?**
    a) Email provider's domain b) Username
    c) User domain **d) @ Symbol**
20. **What is a "database" best described in spreadsheet software like Microsoft Excel?**
    a) A type of chart b) A cell reference
    c) A collection of related data d) A division of results
21. What is the correct syntax of the VLOOKUP function?
    Anser: The correct syntax for the VLOOKUP function in Excel is:
    VLOOKUP(lookup_value, table_array, col_index_num, [range_lookup]
22. Which types of data can be restricted using Data Validation?
    Answer: Excel's Data Validation feature allows you to restrict the type of data or the values that users can enter into a cell. List, Date, Time, Text length, Custom.
23. What role does active listening play in client communication?
    ➤ It helps to understand client needs, builds trust, and improves communication.
24 . Name any three Merge Shapes options available in PowerPoint____
    ➤ Union, Combine, Fragment
25. Where can you find the Eyedropper tool in PowerPoint?*
    ➤ Format tab → Shape Fill or Text Fill → Eyedropper
26. What is the purpose of a Table of Contents in MS Word?*
    ➤ It helps navigate the document easily and shows the structure.
27. Write down 2 ASCII and 2 Unicode font names?*
    ➤ ASCII: Courier New, Arial
    ➤ Unicode: Nikosh, Nirmala UI
28. What is the final step in the Mail Merge process?*
    Answer: The final step in Mail Merge is to **Finish & Merge** by printing or sending the merged documents.

Computer Operation (28/06/2025)

1. Which is not a file format / extension of word document?
   a) .rtf b) .docx c) .txt **d) .xlsx**
2. Workbook is a collection of.
   a) Page set-up **b) Worksheet** c) Buttons d) Diagram
3. Press _____ to close an open menu or submenu, dialog box or message window.
   a) Tab+Ctrl+6 **b) Esc** c) Alt+F3 d) Ctrl+I
4. To remove the content of selected cells you must issue _____ command.
   a) Delete **b) Clear Contents** c) Clear all d) Clear Delete
5. The background style of PowerPoint presentation is known as:
   a) Animation **b) Theme** c) Transition d) Effects
6. Which is a valid file format in PowerPoint?
   a) .pptx b) .pdf c) PowerPt d) .docx
7. The ALU performs _____ operation.
   a) Logarithm b) Algorithm **c) Arithmetic** d) ASCII
8. The command we will choose to convert a column of data into row is _____ ?
   a) Cut and paste **b) Paste Special > Transpose**
   c) Formatting d) Value
9. Short cut Ctrl+P is used for:
   a) Open Paragraph Dialog Box
   b) Open Page Format Dialog Box
   c) Open Save Dialog Box
   d) Open Print Dialog Box
10. Which of the following keyboard command is used to increase font size by 1 point?
    a) Ctrl++ b) Ctrl+[**c) Ctrl+]** d) Ctrl+I
11. One of the functions to join two or more text strings into one text string is:
    a) CONCATENATE b) COUNTA c) COUNT d) INT
12. Which of the following provides a printed copy of your presentation?
    a) Outline b) Speaker notes **c) Audience Handouts** d) All
13. Which of the following is not an example of application software?
    a) MS Powerpoint **b) Linux** c) MS Word d) MS Excel
14. The clock rate of a processor is measured in-
    a) Megahertz or gigahertz b) Nanosecond
    c) Micro hertz d) Millisecond
15. In Microsoft Powerpoint, two kinds of sound effects files that can be added to the presentation is-
    a) .jpg files and .gif files
    b) .wav files and .jpg files
    c) .wav files and .mid files
    d) .wav files and .midi files

Mostakim

16. To create an ID card using word processing software. Which is most important?

a) Insert & Modify shape b) Page layout

c) Insert Header & footer & modify them d) Insert and Modify Picture

17. What does CountA() function do?

a) Counts cells having alphabets b) Counts empty cells

c) Count cells having number **d) Count non-empty cells**

18. In addition to password protection, what other security feature can be used in Microsoft Word to restrict edition?

a) Read-only mode b) Track Change

c) Document Encryption d) Watermark

19. PowerPoint presentations are widely used as :

a) Note outlines for teachers b) Project presentations by students

c) Communication of planning **d) All of above**

20. Which is not a Text function in MS Excel?

a) CODE() b) CLEAN() c) CHAR() **d) DB()**

21. Which chart type is used to visually compare values across a few categories?

a) Area Chart **b) Bar Chart**

c) Doughnut d) Hierarchy Chart

22. Which format represents the numbers with the dollars ($) sign? [For example, $1,000.00]

a) Automatic b) Number c) Time **d) Currency**

23. What is a URL?

a) An acronym for Unlimited Resources for Learning

b) The address of a document or "page" on the World Wide Web

c) A type of programming object

d) A computer software program

24. How can you start a PowerPoint slide show from the beginning?

a) Click on the slide sorter button

b) Press F5

c) Use the Slide Show tab and click on "Start Slide Show"

d) Right-click and select "Start from Beginning"

25. which function in Excel is used to find the highest value in a range of cells?

a) -MAX b) -MIN c) -SUM d) -COUNT

26. What is the primary purpose of video conferencing?

Answer: To conduct live virtual meetings, allowing participants in different locations to communicate via audio and video.

27. What's a common tool for sending out online meeting invitations?

Answer: Email (e.g., Outlook, Gmail) or calendar apps (e.g., Google Calendar, Microsoft Teams).

Mostakim

28. What is the purpose of including an agenda in a scheduled online meeting invitation?

Answer: To inform participants about the topics to be discussed, ensuring preparedness and efficiency.

29. What is Google Forms primarily used for?

Answer: To create surveys, quizzes, or collect data from users in a structured format.

30. What's a common sign that your computer might need maintenance?

Answer: Slow performance, overheating, frequent crashes, or unusual noises from the hardware.

Computer Operation Assment-31/05/2025(Regular & RPL)

1. **Which of the following software is used making a resume?**
   a) Ms Excel
   b) Ms Word
   c) DevC
   d) Java
2. **Press ____to open the help window in the MS Word document**
   a) F1
   b) F2
   c) F9
   d) F11
3. **The ability to combine name and addresses with a standard document is called**
   a) Document formatting
   b) Database management
   c) Mail Merge
   d) Form letters
4. **What is gutter margin?**
   a) Margin added to the left margin when printing
   b) Margin added to the right margin when printing
   c) Margin added to the binding side of the page when printing
   d) Margin added to the outside of the page when printing
5. **Which bar shows the current position as far as the text goes?**
   a) Title bar
   b) Menu bar
   c) Scroll bar
   d) Status bar
6. **Ctrl + N is used to**
   a) Create a new document
   b) Close a document
   c) Open a saved document
   d) Save the document
7. **What does Ctrl + B shortcut accomplish in MS Word?**
   a) It makes the selected text bold
   b) It saves the document
   c) It prints the document
   d) It italicizes text
8. **To print a document press ___ then press Enter**
   a) Ctrl + P
   b) Ctrl + S
   c) Ctrl + V
   d) Ctrl + O
9. **The quickest and easiest way in Word to locate a particular word or phrase in a document is to use the ___ command**
   a) Replace

Shyam

b) Find
c) Lookup
d) Search

10. **Programs or a set of electronic instructions that tell a computer what to do is called**
    a) Software
    b) Hardware
    c) Menu
    d) Monitor
11. **Which of the following is not an essential component to create Mail Merge?**
    a) Main document
    b) Data source
    c) Merge fields
    d) Word fields
12. **In Excel columns are labelled as**
    a) A, B, C
    b) 1, 2, 3
    c) A1, B1, C1
    d) A1:C1
13. **Refers to forward the object one level or in front of all objects**
    a) Bring to front
    b) Rotate
    c) Send to back
    d) Align
14. **When you cut and paste something it is temporarily transferred to**
    a) Another partition on the hard drive
    b) Virtual memory
    c) Swap file
    d) Clipboard
15. **Ctrl + Alt + Delete is**
    a) An invalid key combination
    b) Recognized by Windows only
    c) Used to close the active window
    d) Used to refresh a program
16. **What is the keyboard shortcut to start the slideshow of PowerPoint presentation?**
    a) F5
    b) Ctrl + F5
    c) F12
    d) Ctrl + F12
17. **Correct steps to protect a PowerPoint presentation with a password?**
    a) File > Info > Protect Presentation > Encrypt with Password
    b) Tools > Protect Presentation > Encrypt with Password
    c) File > More option > Protect Presentation > Encrypt with Password
    d) All of above

Sivam

18. **Which sign is used in the formula to use absolute reference?**
    a) Underscore (_)
    b) Equal (=)
    c) Dollar ($)
    d) Colon (:)
19. **How many pins does RJ-45 contain?**
    a) Two
    b) Four
    c) Eight
    d) Ten
20. **Which type of templates provides all users with a design concept, color scheme, and formats for presentation?**
    a) Content
    b) Format
    c) Design
    d) Normal
21. **What is Google Meet used for?**
    Ans: Google Meet is used for online video conferencing and virtual meetings.
22. **How do I share my screen in Zoom?**
    Ans: Click the "Share Screen" button and select the window or screen to share.
23. **My computer is running slow. What steps can I do to fix it?**
    Ans: Close unused apps, delete temporary files, scan for viruses, and consider upgrading hardware like RAM.
24. **Why do Windows programs stop responding?**
    Ans: Because of low memory, software bugs, or conflicts between programs or drivers.
25. **What is Google Slides?**
    Ans: It's a web-based tool to create and present slides, similar to Microsoft PowerPoint.
26. **What is computer driver software?**
    Ans:It's software that helps the operating system communicate with hardware devices.
27. **Can I use Google Meet without a Google account?**
    Ans: Yes, if the meeting host allows guest access.
28. **What is a cell address in Excel?**
    Ans: A cell address refers to the column letter and row number, like A1 or B2.
29. **What is the purpose of Freeze Panes in Excel?**
    Ans: To keep specific rows or columns visible while scrolling.
30. **Differentiate between absolute and relative cell referencing in MS Excel.**
    Ans: **Absolute referencing** (e.g., A1) doesn't change when copied.
    Relative referencing (e.g., A1) changes based on the new location.

NSDA Computer Operation Assessment (17.05.2025)(Regular)

1. Word processing is a type of ——— software.

(A) System

(B) Compiler

(C) Application

(D) Programming

2. What is the default page setup orientation for slides in PowerPoint?

(A) Portrait

(B) Landscape

(C) Vertical

(D) None of the above

3. AutoCorrect was originally designed to ———.

(A) Short relative

(B) Grammatically incorrect

(C) Misspelled

(D) None of the above

4. The ____ works with the standard copy and paste commands:

(A) View tab

(B) Paragraph dialog box

(C) Office clipboard

(D) All of these

5. To insert a hyperlink in a slide

(A) Choose Insert >> Hyperlink

(B) Press Ctrl + K

(C) Hyperlinks can't be inserted in slides

(D) Both A and B

6. Which of these font effects is NOT available in the PowerPoint font dialogue box?

(A) Shadow

(B) Underline

(C) Strikethrough

(D) Emboss

7. Formatting is performed on?

(A) Text

(B) Table

(C) Menu

(D) Both (A) & (B)

8. To start slide show of a presentation

(A) Hit F5 key

(B) From slide show menu choose View Show option

(C) From slide show menu choose Reverse Timing

(D) Both (A) & (B)

9. PowerPoint Presentations are widely used as:

(A) Not outlines for teachers

(B) Project presentation by students

(C) Communication of planning

(D) All of the above

10. What is a motion path?

(A) A type of animation entrance effect

(B) A method of advancing slides

(C) A method of moving items on a slide

(D) All of the above

11. Which of the following options is NOT available in Paste Special dialog box?

(A) Add

(B) Subtract

(C) Divide

(D) SQRT

12. Why is the =COUNTIF function in Excel used?

(**A) Counts cells as specified**

(B) Counts blank cells in a range

(C) Counts cells with numbers in a range

(D) Returns values based on a true or false condition

13. The Greater Than sign (>) is an example of ____ operator.

(A) Arithmetic

(B) Logical

(C) Conditional

(D) Relational

14. In Excel, which one denotes a range from B1 through E5?

(A) B1-E5

(B) B1:E5

(C) B1 to E5

(D) B1$E5

15. The intersection of a column and a row on a worksheet is called:

(A) Column

(B) Value

(C) Address

(D) Cell

16. ___ is not a function in Excel:

(A) Sum

(B) Subtract

(C) Min
(D) Max

17. Which enables us to send the same letter to different people?

(A) Macros
(B) Template
(C) Mail merge
(D) None of the above

18. Where is firmware BIOS stored?

(A) EPROM
(B) ROM
(C) RAM
(D) PROM

19. Which file starts with MS Word?

(**A) Winword.exe**
(B) Word.exe
(C) MSWord.exe
(D) Word2003.exe

20. Select all the text in MS Word document by:

(A) Ctrl + S
(B) Ctrl + A
(C) Ctrl + C
(D) Ctrl + V

21. Write down 5 (Five) cloud storage apps name?

1. Google Drive
2. Dropbox
3. Microsoft OneDrive
4. iCloud
5. pCloud
6. MEGA

22. How many types of Computers (Classification of Computers)?

Ans: 3 types of analog, digital, hybrid

22. What is application software

Ans: অ্যাপ্লিকেশন সফটওয়্যার বা কম্পিউটার অ্যাপ্লিকেশন বলতে বিশেষ ধরনের কম্পিউটার প্রোগ্রামকে বোঝায় যা মানুষকে কোন বিশেষ ধরনের কাজ সম্পাদনে সহায়তা করে। একে শুধু এপ্লিকেশন বা এপ (App) বলা হয়।

23. Write down 5 (Five) internet browser software name?

1. Google Chrome 2. Mozilla Firefox 3. Microsoft Edge 4.Apple Safari 5.Operamini 6. Tor Browser

24. Write down full form of LAN

Ans: LAN stands for **Local Area Network**.

25. Write down "ঞ্জ" in Bijoy Unicode

    Ans: ঞ+জ

26. Write down full form of Wi-Fi.র্

Ans: Wi-Fi stands for **Wireless Fidelity**.

27. What does Malware stand for?

    Ans: Malware stands for **Malicious Software**.

28. What is Google Slide?

Ans: Google Slides is a **free, web-based presentation program** that allows users to create, edit, and collaborate on slideshows online and in real-time.

29. Write down 5 (Five) social media sites/platforms name

1. Facebook 2. Instagram 3. X (formerly Twitter) 4. LinkedIn 5.TikTok

NSDA Computer Operation Assessment (17.05.2025)(RPL)

1. Search Engline এর কাজ কি?

a) রিসোর্সসমূহ ব্যবহারকারীর কাছে উপস্থাপন করা b) ফাইল ডাউনলোড করা

c) তথ্য কপি করা d) কোনটাই না

2. কোনটি Social-media?

a) Google meet b) Zoom

c) Microsoft Team **d) Tweeter**

3. কোনটি Online Storage?

a) Zoom **b) Google Drive**

c) Meet d) Google Classroom

4. কোনটি সঠিক Email ID ফরম্যাট নয়?

a) NSDA@gov.bd b) name@domain.com

c)abc#def@mail.com **d) abc-@mail.com**

5. কোনটি Input device?

a) Scanner b) Monitor

c) Speaker d) Printer

6. কোনটি বাংলা Typing Software?

a) SutonnyMJ **b) Avro**

c) Kalpurush d) Nikush

7. কোনটি Numeric Chaaracter?

a) H b) K

c) & **d) 7**

8. কোনটি Antivirus নয়?

a) Linux b) Norton

c) Avest d) Nood32

9. কোনটি স্থায়ী Storage Device?

a) RAM b) Cash memory

c) SSD d) CPU Register

10. কোনটি System Unit এর অংশ নয়?

a) Processor b) RAM

b) Hard Disk Drive **d) Flash Drive**

11. Projector enable করার Keybord Command কী?

a) Windows Key + P b) Windows Key + V

c) Windows Key + C d) Windows Key + K

12. A4 size এর কাগজ কোনটি?

a) 8.5″ X 11″ **b) 8.27″ X 11.69″**

c) 8.5″ X 14″ d) 8.5″ X 11.5″

13. কোনটি Document Copy করার Keyboard command?

a) Ctrl + P **b) Ctrl + C**

c) Ctrl + V d) Alt + V

14. কোনটি Page Break এর Keyboard command?

a) Ctrl + Break b) Ctrl + End

c) Ctrl + Enter d) Ctrl + Home

15. কোনটি Ms-World এর File extension?

a) .docx b) .doc

c) .exe **d) .Both a and b**

16. একই formatting অন্য একাধিক text এর উপর apply করতে নিচের কোন অপশন ব্যবহার করা হয়?

a) Copy and Paste old Text b) Copy, Paste then Edit

c) Use Formet Painter d) use clipboard

17. কোন Line Spacing টি অগ্রহণযোগ্য?

a) Multiple b) Double

c) Triple d) Singel

18. কোনটি Excel এর vaild data type নয়?

a) Data/time b) Label

c) Character d) Number

19. Excel window এর কোন area তে value ও formula লেখা যাই?

a) Formula bar b) Menu bar

c) Title bar d) Standard Tool bar

20. Row নং 5 ও 6 এর column C হতে E পর্যন্ত call গুলোকে যোগ করার সময় নিচের কোন অপশনটি ব্যাবহার করতে হয়?

a) =SUM(c5:e6) b) =Total(c5:e5)

c) =SUM(c5:e5) d) =MAX(c5:e6)

21. Current data display করার জন্য কোন function ব্যবহৃত হয়?

a) data() b) now()

c) **today()** d) কোনটাই না

22. কোনটি formula এর উদাহরণ?

a) =SUM(A5:A7) b) SUM(A5:A7)

c) #A5+A6+A7 d) A5+A6+A7

23. কোন function টি শর্ত সাপেক্ষে কাজ করে?

a) min() b) count()

c) sumif() d) sum()

24. পূর্বে তৈরি করা Presentation শুরু করার শটকাট হল

a) ctrl+o b) ctrl+m

c) shift+alt+o **d) কোনটাই না**

25. MS- POWERPOINT -এ নতুন প্রেজেন্টেশন তৈরির শটকাট হল।

a) ctrl+n b) ctrl+m

c) shift+n d) alt+n

26. Upper case charater সমূহ type করার জন্য কোন key ব্যবহৃত হয় ?

a) Alt b) Ctrl

c) Esc **d) Shift**

27. বাংলায় জ +ঞ দ্বারা ---------যুক্তবর্ণ লেখা হয়।

Answer: জ্ঞ

28. https এর পূর্ণরূপ কি?

Ans: Hypertext Transfer Protocol Secure

29. English typing এর ক্ষেতে right home key গুলোর নাম লেখা।

Ans: J, K, L, ; (semicolon)

30. word এর ক্ষেতে Wrap Text এর কাজ কী?

MS Word-এ **"Wrap Text"** (র‍্যাপ টেক্সট) এর কাজ হলো ডকুমেন্টে যোগ করা ছবি বা অন্য কোনো অবজেক্টের চারপাশে **টেক্সট কীভাবে সাজানো হবে** তা নিয়ন্ত্রণ করা, যাতে ডকুমেন্টটি দেখতে সুন্দর ও পড়া সহজ হয়।

1. **Which feature is usually used to create a document like a newspaper?**
- A) Bullets & numbering
- B) Tables
- C) Column
- D) Tab

2. **What is the standard unit of font size?**
- A) Centimeter
- B) Bytes
- C) Points
- D) Inches

3. **Which function is used to send the same letter to different recipients?**
- A) Macros
- B) Template
- C) Mail merge
- D) Bibliography

4. **To view "Header & Footer," the user must switch to:**
- A) Normal view
- B) Print layout view
- C) Print preview mode
- D) Both B & C

5. **Which of the following is not a storage media?**
- A) USB Pen Drive
- B) Email
- C) Portable Hard Drive
- D) Optical Drive

6. **Which of the following is not a type of page margin?**
- A) Normal
- B) Narrow
- C) Moderate
- D) Middle

7. **Home key is used to move the cursor to the beginning of the:**
- A) Document
- B) Paragraph
- C) Screen
- D) Line

8. **Which ribbon includes the command for inserting charts that illustrate or compare data?**
- A) Draw
- B) Home
- C) Insert
- D) Design

9. **Excel is a _____ program developed by Microsoft?**
- A) Spreadsheet
- B) Document
- C) Data management
- D) All of the above

10. **Which logical function returns TRUE if all arguments evaluate TRUE, FALSE if not?**
- A) OR
- B) AND
- C) IF
- D) ANDIF

11. **Which function is used to create a date with year, month, and day?**
- A) DATE()
- B) DATEIF()
- C) DATEVALUE()
- D) CURDATE()

-12. **Which memory is faster?**
- A) Cache
- B) RAM
- C) ROM
- D) SSD

13. **A processor unit, a memory unit, and an I/O system form a/an:**
- A) Central Processing Unit
- B) Arithmetic Logic Unit
- C) Control Unit
- **D) Microcomputer**

14. **Zoom, Google Meet, Microsoft Teams, etc. are the:**
- A) Validate sources for customer requirements
- B) Way of communication
- C) Channels of communication
- D) Procedures and Matters

15. **In customer service, etiquette refers to:**
- A) Good interpersonal communication with clients
- B) Listening skills to understand and respond to customers' needs
- C) Verbal & Non-verbal Communication skills
- D) All of the above

16. **_____ is used to customize how your presentation will look as a printed handout?**
- A) Slide Master View
- B) Handout Master View
- C) Note Master View
- D) None of the above

17. **Which option/feature is used to avoid showing all elements of a slide at once?**
- A) Hide slide
- B) Turn off animation
- C) Build slide
- D) Normal view mode

18. **To set the transition speed, select:**
- A) Transition > Timing Group > Duration Box
- B) Transition > Transitions Duration

- C) Transition > Transitions Timing Duration Box
- D) None of the above

19. **During the slide show, which shortcut key is used to view the computer taskbar?**
- A) Ctrl + Shift + Del
- B) Ctrl + T
- C) Shift + T
- **D) Alt + T**

20. **The keyboard shortcut to stop media playback?**
- A) Alt + S
- B) Alt + T
- C) Esc
- **D) Alt + Q**

2. **What is an Excel feature that displays only the data in columns according to specified criteria?**
- **A) Filtering**
- B) Sorting
- C) Formula
- D) Pivot

3. **A change in the appearance of a value or label in a cell is called:**
- A) Alteration
- **B) Format**
- C) Indentation

4. **Which font effect is NOT available in the PowerPoint Font dialog box?**
- A) Shadow
- B) Underline
- C) Strikethrough
- **D) Emboss**

5. **Which type of template provides users with a design concept, color scheme, and fonts for a presentation?**
- A) Content
- B) Format
- C) Normal
- **D) Design**

6. **PowerPoint presentations are widely used as:**
- A) Note outlines for teachers
- B) Project presentations by students
- C) Communication of planning
- **D) All of the above**

7. **What is a motion path?**
- A) A type of animation entrance effect
- B) A method of advancing slides
- **C) A method of moving items on a slide**
- D) All of the above

8. **What happens when you click Ctrl + X after selecting some cells in Excel?**
- **A) The cell content disappears and is stored in the clipboard**
- B) The cells are marked for cutting
- C) The selected cells are deleted and shifted left
- D) The selected cells are deleted and shifted up

9. **A data analysis tool that allows us to create a computerized ledger is:**
- A) Word processing package
- **B) Spreadsheet package**
- C) Graphic package
- D) Mathematical package

10. **In Google Sheets, columns are represented by:**
- A) Numbers
- **B) Letters**
- C) Letters and numbers
- D) Cells

1. **Which type of chart is good for a single series of data?**
- A) Column chart
- B) Cone chart
- C) Line chart
- **D) Pie chart**

2. **What is an Excel feature that displays only the data in columns according to specified criteria?**
- **A) Filtering**
- B) Sorting
- C) Formula
- D) Pivot

3. **Which Excel function returns TRUE or FALSE based on two or more conditions?**
- A) =AVERAGEIFS
- B) =CONCAT
- C) =COUNTA
- **D) =AND**

4. **Which font effect is NOT available in the PowerPoint Font dialog box?**
- A) Shadow
- B) Underline
- C) Strikethrough
- **D) Emboss**

5. **Which type of template provides users with a design concept, color scheme, and fonts for a presentation?**
- A) Content
- B) Format
- C) Normal
- **D) Design**

6. **PowerPoint presentations are widely used as:**
- A) Note outlines for teachers
- B) Project presentations by students
- C) Communication of planning
- **D) All of the above**

7. **What is a motion path?**
- A) A type of animation entrance effect
- B) A method of advancing slides
- **C) A method of moving items on a slide**
- D) All of the above

8. **What happens when you click Ctrl + X after selecting some cells in Excel?**
- **A) The cell content disappears and is stored in the clipboard**
- B) The cells are marked for cutting
- C) The selected cells are deleted and shifted left
- D) The selected cells are deleted and shifted up

9. **A numeric data analysis tool that allows us to create a computerized ledger is:**
- A) Word processing package
- **B) Spreadsheet package**
- C) Graphic package
- D) Mathematical package

10. **In Google Sheets, columns are represented by:**
- A) Numbers
- **B) Letters**
- C) Letters and numbers
- D) Cells

11. **Which sign is used in a formula to use absolute reference?**
- A) Underscore (_)
- **B) Dollar ($)**
- C) Equal (=)
- D) Column (:)

12. **Which feature allows you to narrow down data in your worksheet?**
- **A) Filters**
- B) Reporting
- C) Sorting
- D) Statics

13. **Which format represents numbers with a dollar sign (e.g., $1,000.00)?**
- A) Automatic
- B) Number
- **C) Currency**
- D) Time

14. **A list of various coded instructions is known as:**
- A) Flowchart
- B) Utility program
- C) Algorithm
- **D) Computer program**

15. **What is a URL?**
- A) An acronym for Unlimited Resources for Learning
- **B) The address of a document or "page" on the World Wide Web**
- C) A type of programming object
- D) A computer software program

16. **Which of the following is not an operating system?**
- A) UNIX
- B) MS-DOS
- C) CP/M
- **D) PASCAL**

17. **Which is used to store firmware?**
- A) EPROM
- **B) ROM**
- C) RAM
- D) PROM

18. **Documents can be _____ with MS Word.**
- A) Created
- B) Edited
- C) Saved
- **D) All of the above**

19. **Which tab is the default in MS Word?**
- **A) Home**
- B) Insert
- C) Page Layout
- D) Reference

20. **Which of the following is automatically counted in MS Word?**
- A) Number of words
- B) Number of pages
- C) Number of characters
- **D) All of the above**

1. **Which feature is used to display values in ascending or descending order?**
- A) Filtering
- **B) Sorting**
- C) Numbering
- D) Formatting

2. **To lock heading rows in place while scrolling, use:**
- **A) Freeze Panes**
- B) View heading rows
- C) View Ruler
- D) Split Windows

3. **Touching an object with a mouse pointer is called:**
- A) Pausing
- B) Dropping
- C) Pointing
- **D) Hovering**

4. **Which section does not exist in a slide layout?**
- A) Titles
- B) Lists
- C) Charts
- **D) Animation**

5. **The space between the margin and the start of a paragraph is called:**
- A) Blank space
- B) Positive space
- C) Negative space
- **D) Indentation**

6. **Which one is not word processing software?**
- A) MS Word
- B) WordPerfect
- C) LibreOffice
- **D) Prezi**

8. **Which chart compares the performance of sales of two products?**
- A) Pie Chart
- **B) Column Chart**
- C) Line Chart
- D) Bar Chart

9. **Which one is not a presentation program?**
- A) MS PowerPoint
- B) Prezi
- **C) Google Slides**
- D) Google Sheets

10. **What is the correct term for a PowerPoint presentation?**
- A) Chart
- **B) Slides**
- C) Clipart
- D) Image

11. **What is the shortcut key to create a hyperlink?**
- A) Ctrl + N
- **B) Ctrl + K**
- C) Ctrl + Z
- D) Ctrl + Y

12. **AutoCorrect was originally designed to replace _____ words as you type.**
- **A) Misspelled**
- B) Short, repetitive
- C) Grammatically incorrect

13. **Which Excel function returns TRUE or FALSE based on two or more conditions?**
- A) =AVERAGEIFS
- B) =CONCAT
- C) =COUNTA
- **D) =AND**

14. **Which ribbon tab in MS Word contains options for adjusting margins and orientation?**
- A) Insert
- B) Home
- **C) Page Layout**
- D) References

15. **What is the purpose of Slide Master in PowerPoint?**
- A) To add animations to slides
- **B) To design and customize the appearance of all slides**
- C) To record narration for slides
- D) To record endnotes for slides

16. **Which one is a valid Function?**
- A) =A1+A2
- B) Add(A1:A2)
- C) A1+A2
- **D) =Sum(A1:A2)**

17. **Which one is a valid formula?**
- **A) =A1+A2**
- B) =Add(A1:A2)
- C) A1+A2
- D) Sum(A1:A2)

Short Answer

21. **What is the purpose of a section break in a Word document?**
   - **Answer:** To divide the document into sections with different formatting (e.g., page layout, headers/footers).
22. **What is the difference between verbal and non-verbal communication with a client?**
   - **Answer:** Verbal communication uses spoken words, while non-verbal communication uses gestures, facial expressions, or body language.

23. **What is the meaning of “Booting” in the computer system?**
   - **Answer:** The process of starting up a computer and loading the operating system.

24. **What does the “Collate” option in printing settings do?**
   - **Answer:** It prints multiple copies of a document in sequential order (e.g., Page 1,2,3 then 1,2,3).

25. **What is the shortcut key to break a page?**
   - **Answer:** `Ctrl + Enter` (inserts a page break in Word).

26. **Write down 4 email service providers' names.**
   - **Answer:** Gmail, Outlook, Yahoo Mail, AOL Mail.

27. **What is system software?**
   - **Answer:** Software that manages hardware and enables other programs to run (e.g., operating systems, device drivers).

28. **Write down 5 antivirus software names.**
   - **Answer:** Avast, Norton, McAfee, Kaspersky, AVG.

29. **What is the full form of NIC?**
   - **Answer:** Network Interface Card.

30. **What does it mean to ‘install’ software on a computer?**
   - **Answer:** Copying and configuring software to make it ready for use on the system.

31. **What is a computer virus?**
   - **Answer:** A malicious program that replicates itself and harms data or system functionality.

32. **What is Google Docs?**
   - **Answer:** A free online word-processing tool for creating and editing documents.

33. **Write down 5 online meeting/video conference software names.**
   - **Answer:** Zoom, Google Meet, Microsoft Teams, Skype, Cisco Webex.

34. **What do you mean by Unicode?**
   - **Answer:** A universal encoding standard for representing text/characters in computers (supports multiple languages).

35. **How many types of computers are there (classification of computers)?**
   - **Answer:** 4 types: Supercomputers, Mainframes, Minicomputers, Microcomputers (e.g., PCs).

Oral or Short questions (26-30) for NSDA Exam Preparation

Q1. Write down the name of 3 antivirus?
Ans: Kaspersky, McAfee, Norton, Avira, Eset, Avast, Bit Defender

Q2. Write down the name of 3 viruses?
Ans: Cryptolocker, MyDoom, Klez, Nimda, Melissa, ILoveYou

Q3. Top 05 Most Common Computer Problems.
Ans: 1. The Computer Won't Start
2. The Screen is Blank
3. Abnormally Functioning Operating System or Software
4. Windows Won't Boot
5. The Screen is Frozen
6. Computer is Slow
7. Strange Noises
8. Slow Internet
9. Overheating
10. Dropped Internet Connections

Q4. What is the use of ethernet port?
Ans: The most common use for an Ethernet cable is connecting a WiFi router or modem to the internet entry port or telephone line. It can also be used to hardwire devices like TVs, computers and other devices that require the internet or a network to work.

Q5. What is driver software?
Ans: A driver software is a type of software program that controls a hardware device. On any computer, smartphone, tablet, different hardware components that are part of the computer and attached devices need to communicate with each other for a computer to function and work.

Q6. Write down the 2 printing errors in your Printer.
Ans: 1. Print spooling
2. Paper jam
3. Poor print quality
4. Printer status Offline

Q7. What is Antivirus?
Ans: An antivirus is a software that helps keep a computer system healthy and free of viruses and other types of malware.

Q8. What are the purposes of Antivirus?
Ans: The purposes of antivirus are Scanning Files, Virus Protection, Spyware.

Q9. Give an example of volatile memory.
Ans: RAM, Cache Memory

Q10. Name 5 computer peripherals.
Ans: Mouse, Keyboard, Monitor, RAM, DVD-ROM, Microphone, Webcam, Printer

Q11. Name 2 Typing application software in Bangla.
Ans: Bijoy, Avra, Lipikaar

Q12. Write down 3 font name.
Ans: Times New Roman, SutonnyMj, Vrinda, SolaimanLipi, Sonar Bangla, Nikosh, Tahoma

Q13. What is the difference between function and formula in excel.
Ans: Function is predefined and formula is created by user.

Q14. What are the 3 examples of presentation software?
Ans: Microsoft PowerPoint, Google Slide, Prezi, LibreOffice impress

Q15. List 3 printer error?
Ans: 1. Print spooling 2. Paper jam
3. Poor print quality
4. Printer status Offline

Q16. Name 3 Best Free Email Providers Name?
Ams: Gmail, Yahoo, Outlook

Q17. What is the name of 3 network device?
Ans: Switch, Router, Access Point, Modem, Gateway, ethernet port

Oral or Short questions (26-30) for NSDA Exam Preparation

Q18. Write down some Common applications?
Ans: Word pad, Note pad, Paint, Media player, Calculator, Sticky Notes, Snipping tool

Q19. Write down 2 file attributes?
Ans: Date, Size

Q20. Write down 3 way of communication?
Ans: Verbal, Written, Online communication

Q21. Write down some channels of communication?
Ans: Zoom, Google meet, Microsoft team, Go meeting, Boithok, Webex, Skype, WhatsApp

Q22. Write down the name of 3 Word Processing Application Software?
Ans: Microsoft Word, LibreOffice Writer, Google Doc, WPS Office Free Writer

Q23. Write down the name of 3 Spreadsheet Application Software?
Ans: Excel, Google Sheet, Numbers (MacOS), LibreOffice Calc, OpenOfficeOrg

Q24. Write down 3 Arithmetic Operators Symbol?
Ans: +, -, *, /

Q25. Write down 3 Logical Operators?
Ans: IF, AND, OR, NOT

Q26. Write down 3 Relation Operators Symbol?
Ans: =, <, >, <=, >=, <>

Q27. Write down some Browsers Name?
Ans: Microsoft Edge, Google Chrome, Mozilla Firefox, Opera, Safari, Brave, Yandex, Duronto Browser, Netscape Navigator, Tor Browser

Q28. Write down some Search engines Name?
Ans: Google, Yahoo, Bing, MSN Ask, Duckduckgo, AltaVista

Q29. Write down some Virtual Platforms Name?
Or, What are the 3 Virtual Video conferencing Platforms?
Ans: Zoom, Google Meet, WhatsApp, WeChat, Skype, Bip

Q30. Write down some Cloud Storage Name?
Or, Write down the Top 5 cloud data storage services?
Ans: Google drive, OneDrive, Dropbox, MEGA, Box

Q31. Write down some Online Form Name?
Ans: Google form, Microsoft form, Type form, Paper form, Wufoo

Q32. Write down some Unicode font name?
Ans: Nikosh, Solaimanlipi, kalpurush, mukti, vrinda, Sonar Bangla

Q33. Write down 2 ASCII font name?
Ans: SutonnyMj, Ananda

Q34. Write down 3 Device drivers name?
Ans: Printer Driver, Scanner Driver, Webcam Driver

Q35. Give an example of non-volatile memory.
Ans: HDD, ROM
